

Nick Lamparelli

Aspiring Full Stack
Web Developer

(331) - 330 - 6524

Nicklamparelli44@gmail.com

I am an aspiring Full Stack Web Developer completing a web development course through Career Foundry. I have experience in front-end and back-end technologies, including UI Design, JavaScript, React, Bootstrap, Node.js, MongoDB, and GraphQL. I excel in fast-paced collaborative environments. My diverse background has allowed me to refine my interpersonal skills, as well as enhance my problem-solving abilities. I am eager to contribute to innovative web development projects.

Education

Certificate of Completion in Full Stack Web Development	2024
Career Foundry, Boston, MA	
Bachelors of Science Marketing	2016 - 2020
Quinnipiac University, Hamden, CT	

Educational Experience

- Proficient in Front End Frameworks
- Gained expertise in front-end frameworks such as React.js, BootStrap, and Vue.js, implementing dynamic user interfaces and enhancing user experience across multiple projects.
- Mastered Core Web Technologies
- Developed a solid understanding of HTML, CSS, and JavaScript by building various web applications and designing responsive landing pages, focusing on clean and efficient code.
- Acquired Knowledge of Full Stack Tech Stacks
- Became proficient in full-stack technologies, including MERN (MongoDB, Express.js, React.js, Node.js).
- Developed and Managed Databases:
- Designed and implemented databases using SQL and MongoDB for a variety of applications, such as blogs, movie apps, and real-time chat applications, ensuring data integrity and efficient storage solutions.
- Built Full-Stack Applications:
- Created full-stack web applications that feature seamless front-end interfaces and robust back-end services, applying RESTful API principles for data communication.
- Exposure to Best Practices and Industry Standards:
- Learned and applied coding best practices, including modular design, responsive design principles, and Agile development methodologies, to ensure high-quality code and efficient workflows.
- Hands-On Experience with Cloud Deployment:
- Gained experience deploying web applications on cloud platforms like Heroku ensuring accessibility and scalability of web projects.

Professional Experience

Sales and Marketing Associate

Bozzuto Management Company

Boston, Ma

August 2021 - June 2024

- Managed Operations at Luxury Apartment Complexes:
- Addressed and resolved resident issues, including maintenance requests, lease negotiations, and renewals, ensuring seamless operations and a high level of resident satisfaction.
 - Conducted building tours for prospective clients and brokers, showcasing amenities and features to drive occupancy rates.
- Onboarding and Technical Support:
- Successfully onboarded new residents onto the company's app and online portal, guiding them through processes such as making payments, reserving accommodations, submitting service requests, messaging fellow residents, and posting on bulletin boards.
 - Frequently resolved technical errors and provided support for users facing difficulties, including those who were not tech-savvy or faced language barriers, ensuring a smooth user experience and high satisfaction levels.
- Data Management and File Auditing:
- Conducted thorough audits of resident files, maintaining data integrity in compliance with company policies supporting efficient property management operations.
- Personalized Client Interaction:
- Developed a deep understanding of client needs and preferences, providing tailored recommendations.
 - Cultivated strong relationships with residents to ease tensions around lease renewals and maintenance requests, resulting in improved resident retention.
- Outstanding Performance in Sales and Customer Service:
- Consistently scored high on blind shop evaluations, receiving a perfect score of 105/100, reflecting exceptional customer service skills and property knowledge.
 - Achieved company-wide recognition for exceeding quarterly sales quotas on multiple occasions, demonstrating strong sales acumen and market understanding.
